

New Source Review newspaper advertisements for construction permit applications, March 23, 2006. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: March 21, March 22, or March 23, 2006. Public notices are generally published every two weeks. The previous publication of public notices was March 7 – 9, 2006.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

FIRST APPLICANT

The first applicant is Rogers Group, Inc. with a mailing address of P.O. 25250, Nashville, TN 37202-5250. They seek to obtain an air contaminant permit (Division identification number: 02-0023-03/58945) to construct a Batch Mix Asphalt Plant at 2540 Highway 41A, Shelbyville, TN 37160. This proposed operation would consist of a dryer, elevator, hot screens, hot mix bins, asphalt batch mixer, hot mix asphalt storage, truck load-out, aggregate bins, conveyors, aggregate storage piles, and associated equipment used to process and ship asphalt. No. 4, waste oil, and No. 2 diesel fuel would be used for fuel. A baghouse and wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Robert Benjamin is the assigned Division person.

SECOND APPLICANT

The second applicant is Vulcan Materials Company with a mailing address of P.O. Box 7, Knoxville, TN 37901. They seek to obtain an air contaminant permit (Division identification number: 02-0080-04/58992) for modification of an Asphalt Plant located at 1638 Railroad Avenue, Shelbyville, TN 37160. This existing operation consists of a 525 horsepower diesel-generator used to supply power to a riprap crusher. No. 2 fuel oil is used as fuel for the generator. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Robert Benjamin is the assigned Division person.

For the Bedford County "Shelbyville Times-Gazette"--published once on or before Thursday, March 23, 2006.

The applicant is Caraustar Industries, Inc. with a mailing address of P.O. Box 287, Kingston Springs, TN 37082. They seek to obtain an air contaminant permit (Division identification number: 11-0053-01/58962) for operation of

an existing Carton Printing and Folding Operation located at 167 Luyben Hills Road, Kingston Springs, TN 37082. The existing operation consists of two (2) color offset lithographic printing presses used to print paper cartons and one (1) die cutter. There is material transfer equipment which also serves as pollution control equipment. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. Nicole King is the assigned Division person.

For the Cheatham County "Ashland City Times"--published once on or before Thursday, March 23, 2006.

The applicant is Lakeway Recycling & Sanitation with a mailing address of P.O. Box 1894, Morristown, TN 37816. They seek to obtain an air contaminant permit (Division identification number: 32-0234-01/58741) for construction of an Air Curtain Destructor at 4601 Sublett Road, Morristown, TN 37813. This proposed operation would consist of an air curtain destructor and associated equipment used to burn brush, paper, cardboard, wood, and pallets. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

For the Hamblen County "Citizen Tribune"--published once on or before Thursday, March 23, 2006.

The applicant is C & M Sawmill with a mailing address of P.O. Box 163, Toone, TN 38381. They seek to obtain an air contaminant permit (Division identification number: 35-0077-01/58839) for a Woodworking Operation located at 11315 Highway 100, Toone, TN 38381. This existing operation consists of one (1) diesel-driven chain system sawmill. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. G. Latif is the assigned Division person.

For the Hardeman County "Bolivar Bulletin-Times"--published once on or before Thursday, March 23, 2006.

FIRST APPLICANT

The first applicant is B. T. Redi-Mix, Inc. with a mailing address of P.O. Box 662, Brownsville, TN 38012. They seek to obtain an air contaminant permit (Division identification number: 38-0075-01/58958) to construct a Concrete Batch Plant at 1800 Boyd Avenue, Brownsville, TN 38012. This proposed operation would consist of gravel, crushed rock and sand stockpiles, cement silo, a mixer, and associated equipment used to produce ready-mix concrete. A baghouse and wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Robert Benjamin is the assigned Division person.

SECOND APPLICANT

The second applicant is B.T. Redi-Mix, Inc. with a mailing address of P.O. Box 662, Brownsville, TN 38012. They seek to obtain an air contaminant permit (Division identification number: 57-0276-01/58957) to construct a Concrete Batch Plant at 71 Dominion Drive, Jackson, TN 38305. This proposed operation would consist of gravel, crushed rock and sand stockpiles, cement silo, a mixer, and associated equipment used to produce ready-mix concrete. A baghouse and wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Robert Benjamin is the assigned Division person.

For the Madison County "Jackson Sun"--published once on or before Thursday, March 23, 2006.

The applicant is Wright Paving Contractors, Inc. with a mailing address of 372 Shelbyville Hwy, Fayetteville, TN 37334. They seek to obtain an air contaminant permit (Division identification number: 59-0079-01/58980) for modification of a Drum Mix Asphalt Plant located at 600 Darnell Mealer Rd., Lewisburg, TN 37091. This existing operation consists of crushed rock and sand stockpiles, a continuous type mixer, and associated equipment used in the production of hot-mix asphalt. Natural gas and No. 2 fuel oil are used for fuel. Wet suppression and a baghouse are used for pollution control. The requested modification is for the addition of waste oil as a fuel source. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. M. Smith is the assigned Division person.

For the Marshall County "Lewisburg Tribune"--published once on or before Thursday, March 23, 2006.

The applicant is B&B Concrete Products, Inc. with a mailing address of P.O. Box 124, Loretto, TN 38469. They seek to obtain an air contaminant permit (Division identification number: 60-0201-01/58984) for a Concrete Batch Plant located at 1107 Santa Fe Pike, Columbia TN 38401. This existing operation consists of gravel, crushed rock and sand stockpiles, cement silo, a mixer, and associated equipment used to produce ready-mix concrete. A baghouse and wet suppression are used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Robert Benjamin is the assigned Division person.

For the Maury County "Daily Herald"--published once on or before Thursday, March 23, 2006.

The applicant is Mastermelt America, LLC with a mailing address of P.O. Box 597, Sweetwater, TN 37874. They seek to obtain air contaminant permits for construction of air contaminant sources at 319 Industrial Park Road, Sweetwater, TN 37874, as follows:

(1) Melting Operation (Division identification number: 62-0125-01/58971). This proposed operation would consist of two (2) natural gas-fired furnaces, 1 MMBtu/hr each. An afterburner and scrubber would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source.

(2) Grinding and Blending Operation (Division identification number: 62-0125-02/58972). This proposed operation would consist of two (2) ball mills, a shaker screen, two (2) blenders, and two (2) melt furnaces. A Baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source.

(3) Pan Cooling Operation (Division identification number: 62-0125-06/58976). A baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. T. Blake is the assigned Division person.

For the "Monroe County Advocate"--published once on or before Thursday, March 23, 2006.

The applicant is J.F.B. Inc. dba Comet One Hour Cleaners with a mailing address of 2306 Madison Street, Clarksville, TN 37043. They seek to obtain an air contaminant permit (Division identification number: 63-0153-01/58737) for modification of an existing Dry Cleaning Operation located at the same address. The proposed modification is to replace the existing machine with a new dry-to-dry perchloroethylene machine. A refrigerated

condenser and a carbon adsorber would be used for pollution control. There would be physical construction. Regulated air contaminants are emitted by this source. Ms. Nicole King is the assigned Division person.

For the Montgomery County "Leaf-Chronicle"--published once on or before Thursday March 23, 2006.

The applicant is Griffin Industries, Inc. with a mailing address of P.O. Box 727, Union City, TN 38261-0727. This company seeks an air contaminant permit (Division identification number: 66-0094-02/58768) for modification of Boilers, Cooking Operations, and Rotary Dryers located at 2027 River Road, Union City, TN 38261. The operation to be modified consists of four (4) 1200 HP boilers that use natural gas, number 2 fuel oil, and/or waste cooking oil. Boilers 3 and 4 are subject to New Source Performance Standards (NSPS) requirements. The proposed modification is to increase fuel usage. Because of the amount and type of emission, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Doug Warden is the assigned Division person.

For the Obion County "Union City Daily Messenger"--published once on or before Thursday, March 23, 2006.

The applicant is East Tennessee Natural Gas, LLC with a mailing address of P.O. Box 1642, Houston, TX 77251. They seek to obtain an air contaminant permit (Division identification number: 78-0086-02/58966) for modification of a Natural Gas Compressor Station located at 2319 McCleary Road, Sevierville, TN 37876. This existing operation consists of two natural gas-fired combustion turbines and associated equipment used to compress natural gas for transport. Natural gas is used for fuel. The requested modification is for the addition of one (1) 1.257 MW combustion turbine to the existing operation. This source would be required to use Best Available Control Technology (BACT) to reduce emissions of nitrogen oxides and volatile organic compounds. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. T. Blake is the assigned Division person.

For the Sevier County "Mountain Press"--published once on or before Thursday, March 23, 2006.

The applicant is ESG Biofuels, LLC with a mailing address of 4655 Rosebud Lane, Newburgh, IN 47630. They seek to obtain an air contaminant permit (Division identification number: 90-0282-01/58954) for construction of a Landfill Gas Processing Facility at 1705 East Main Street, Johnson City, TN 37601. This proposed operation would consist of compression, filtering, extraction, and treatment equipment used to process landfill gas. The treated landfill gas would be sent offsite for use as fuel. A flare would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. T. Blake is the assigned Division person.

For the Washington County "Johnson City Press"--published once on or before Thursday, March 23, 2006.
